

**SMART.
SAFE. SECURE.**

SmartLocker™ Electronic Access Management System

SmartLocker™

SmartLocker™: The leading solution for managed locker systems

TODAY, LOCKERS ARE ABOUT MORE THAN STORAGE; THEY ARE AN ASSET TO BE MANAGED, A SOURCE OF POTENTIAL RISK TO BE CONTROLLED AND A CAPITAL INVESTMENT THAT CAN EITHER ADD TO YOUR MAINTENANCE AND REPAIR COSTS — OR REDUCE THEM THROUGH THE APPLICATION OF TECHNOLOGY.

SMARTLOCKER™, THE MANAGED LOCKER SOLUTION FROM Penco™, IS THE ONLY INSTALLED SYSTEM IN THE MARKET TODAY THAT ADDRESSES ALL OF THESE CHALLENGES WITH A SINGLE, LOCKER-BASED SECURITY SOLUTION. WHAT IS THE SMARTLOCKER™ ADVANTAGE? CONSIDER:

Security and management: The administration program software is password protected. Administrators can choose who has access to locker information and how much information each user can view while exercising responsible facility control.

Accountability: Every SmartLocker™ system has a built-in audit trail, with the system recording each authorized use as well as attempted locker intrusions. Each use of a locker is recorded to a database and can be viewed or analyzed if needed.

Installation and maintenance: The factory-welded lockers install easily, and come pre-wired, speeding the installation process. Keyless technology eliminates the top maintenance cost for lockers: re-keying units and remaking keys.

Ease of use: Administrators can open or lock down individual lockers, the entire system or groups of lockers all from a computer console. And setting up the system is a snap, with easy, automated locker assignment or individual, manual assignments. SmartLocker is equally user friendly to cardholders — when an authorized user swipes an approved ID card, their locker door quickly unlocks with no need to remember a combination or fumble for a key.

Configurable to work with your existing ID systems: The SmartLocker™ system can utilize most existing access credentials such as student IDs, library cards, health club membership cards, etc.

Support every step of the way: From planning through installation and post-install configuration, your SmartLocker™ purchase will be supported by the industry's leader in intelligent locker systems — Penco.

"From an administrative perspective, SmartLocker™ is more secure. Plus, it's much easier to administer."

GARY BELTZ, FACILITIES MANAGER CRANBERRY TOWNSHIP

SmartLocker™

Lock mechanism

The single-point latch is securely riveted to the locker body, providing a firm seat for repetitive door use. The door is held closed by an electromechanical locking system.

Steel lock plunger

The hardened steel plunger is securely fastened to each door with a tamper resistant fastener.

Proximity reader

Provides easy long lasting consistent use with multiple card and fob devices. No moving parts; can be mounted behind in walls or filler panels for added security.

Magnetic stripe card reader

SmartLocker can be adapted to use any magnetic stripe card, such as student IDs, workplace access cards or similar devices.

SmartLocker™ at a glance

PENCO'S INTEGRATED SOLUTION COMBINES CENTRALIZED MANAGEMENT AND INTELLIGENT, SECURE STORAGE UNITS. THE ELECTRONICALLY OPERATED LOCKERS ARE OPENED WITH A MAGNETIC CARD OR A PROXIMITY CREDENTIAL.

One solution: SmartLocker™ revolutionizes how organizations manage lockers and related security issues. Schools, retail establishments and other locations concerned with security and safety can centrally manage and secure their lockers, individually or with system-wide operations.

One system: A single administrative console can manage tens, hundreds or even thousands of lockers, maintaining records of access, instantly changing passwords or denying access to the entire system during off-hours.

One industry leader: SmartLocker™ is a proven solution, with institutional and corporate installations in place and saving their owners thousands of dollars in administrative, re-keying and maintenance costs.

Benefits throughout the organization

WHETHER YOU'RE RESPONSIBLE FOR FACILITIES OR MANAGING FROM THE EXECUTIVE'S OFFICE, SMARTLOCKER™ MAKES SENSE.

Facility managers: SmartLocker™ reduces labor for maintenance and management.

Institutional administrators: SmartLocker™ is an advanced safety measure and a hedge against potential liability.

Retail operators: SmartLocker™ can help reduce losses due to theft and is a convenience to customers or employees.

Door design elements

Standard louvers provide ventilation through the door. The pattern varies with door size, and full louvers are available.

Mini louvers provide a high degree of ventilation while keeping contents out of view.

Door flange ventilation allows for ventilation through slots in the top and bottom flange.

Diamond shaped perforations popular in applications which require maximum ventilation.

Door hinge details include 16 gauge, full-length piano hinges to maintain door alignment and prolong operation.

Standard powder coat colors

021 Gray Ash	028 Gray	073 Champagne
723 Light Putty	012 Tawny Tan	701 Spray Green
952 Turquoise Teal	924 Peacock	812 Hunter Green
715 Lake Blue	826 Slate Blue	806 Marine Blue
822 Regal Blue	783 Iris	710 Sagebrush Yellow
720 Mandarin Orange	722 Patriot Red	767 Cardinal Red
736 Burgundy	848 January White	949 Jet Black

Optional finish types

Penco optional finishes are available in two forms:

PowderCoat Plus™ is a cost-effective way of improving the durability and rust-resistance of steel lockers. After a specialized cleaning and pre-treatment of the steel, a 2 mil thick coating of powder coat enamel is applied and baked onto the steel surface.

X-Off™ Anti-Graffiti Paint provides a surface coating that allows easy removal of graffiti with the special Erasol® cleaner. This specially formulated paint has a tight molecular structure that completely seals the locker surface, preventing graffiti from penetrating the finish.
